From the Desk of Editor

Rotary International President-elect Jennifer Jones wants members to imagine the possibilities in the change they can make to transform the world. Jones, revealed the 2022-23 presidential theme, Imagine Rotary, as she urged people to dream big and harness their connections and the power of Rotary to turn those dreams into reality. The same needs to be applied within RBV to make use of every opportunity available to make a difference to the society and make the journey as a Rotarian enjoyable, memorable and worthy. Increasing membership and increasing the scale of projects is the need of the hour at RBV and one hopes that the new team announced by President Elect Rtn. Ravishankar S works in this direction and scales new peaks.

The beginning of the new year 2022 has been a dampener with the onset of third wave of Covid-19 due to the omicron variant which has disrupted the activities at the industry and public level. As a result some of the activities planned in Youth Services, Vocational Services have taken a backseat and polio vaccination drive has been postponed. One hopes that this situation does not last long and we will be able to catch up with our plans at the earliest.

Not often one comes across someone winning accolades in the corporate world at the national level. Especially if he happens to be one amongst us the happiness and sense of pride is multifold. P.V. Rai led Pixel Softek was adjudged as the Top Ranking Company under the "India's Top Performing MSMEs at the 2nd edition of ET Rise Top MSMEs Ranking focused on honouring home-grown MSMEs that exemplified resilience and the never-say-die spirit of human being in the challenging times. Congratulations to him and his team and wishing them more in the years to come.

"A Rotary club gives us an opportunity that no social, political, or specialized business club can do. It is strong on the human side; it stands for the individual, unfetters him, appeals to his originality, brings out his latent powers, and puts him at his best by extending him the full measure of his confidence and appealing to the best that is in him — 'service not self.'"

RI president-elect announces 2022-23 presidential theme

Rotary International President-elect Jennifer Jones wants members to imagine the possibilities in the change they can make to transform the world. Jones, revealed the 2022-23 presidential theme, Imagine Rotary, as she urged people to dream big and harness their connections and the power of Rotary to turn those dreams into reality.

“Imagine, a world that deserves our best,” Jones told incoming district governors on 20 January, “where we get up each day knowing that we can make a difference.” Jones, who will make history on 1 July by becoming Rotary’s first female president, gave a live online address to precede Rotary’s annual training event for district governors from around the world, the International Assembly.

Engaging members through meaningful responsibility

To better engage members, Rotary needs to “adapt and retool,” Jones said. For Rotary, “finding the right ‘part’ to engage each member should be our core function,” Jones said. “It comes down to the comfort and care of our members.”

“It is our offer of hands-on service, personal growth, leadership development, and lifelong friendships that creates purpose and passion,” Jones said. Imagine, a world that deserves our best where we get up each day knowing that we can make a difference. Embracing change also means embracing new club models, Jones said, as she asked the incoming governors to form at least two new innovative or cause-based clubs during their term. “Let’s make sure we engage our members so they love their clubs and their Rotary experience,” she added.

Jones closed her address by saying that although we all have dreams, acting on them is a choice we make. When an organisation like Rotary dreams about big things like ending polio and creating peace, she said, it becomes our responsibility to make them happen. “You don’t imagine yesterday,” Jones said, “you imagine tomorrow.”
