'Knowledge'

By R/P Purvi Harish Chauhan

We have often heard the saying ' Knowledge is Power'. Knowledge is a 'Treasure' that stays with us life-long and no one can take away this valuable possession from us.

“There is no Wealth like Knowledge, no poverty like ignorance” – Lord Buddha

Knowledge is of no use until put into practice. Knowledge enriches the journey called life and stays with you for the whole life. It is required in all aspects of work you do. If someone wants to drive a car, they

require certain skill sets and techniques for right driving. Once you know how to drive it, you have acquired that ability out of continuous practice on the road. This relates that all kinds of skills require knowledge.

Acquisition of knowledge is an unending process as Learning is a continuous process throughout all phases of life. The more you share, the more it increases. Knowledge has changed so many lives bringing about positive changes in one self. Knowledge brings prosperity and happiness to Nation and opens the door for success for everyone.

“Knowledge with action converts adversity into Prosperity.”- A. P. J. Abdul Kalam
