**“Leading Change in Rotary” by PDG Rtn. Nagendra S**

On 16th March PDG Rtn. Nagendra S spoke on the topic “ Leading Change in Rotary” at Vijayanagar Club. He said as change is constant in life similarly in Rotary also there’s an emphasis in realising that change is inevitable, hence focus is towards Leading the Change in Rotary. He highlighted that even Paul Harris in the early part of last century had observed that constant change is inevitable and more so in Rotary hence Rotary has to prepare itself to manage the Changes. He observed that dynamics of membership, format of clubs, style of functioning is constantly undergoing change and one has to observe and adapt the best practices by constant observation. Using his vast experience and exposure he answered to the queries which were raised by Rotarians who attended in good number

**From the Desk of Editor**

This edition reaches you in the backdrop of completion of the Governor's Official Visit to our club on 25th February attended by District Officials and First Lady of the District. Being the chairman of the event it was an unique experience executing this important event of the year. I take this opportunity to thank all who contributed towards the smooth conduct of the event.

The track record and strong foundation laid by the seniors and Past Presidents was evident when DG lavished his praise at the systems and processes in place in the club. He said he will show our Plans & Programs, Club Roser and GOV book to other clubs during his visit in the coming days. He said such documentation makes it easier for reviewing the activities and functioning of the club.

Another event which concluded successfully was the NID 2022 - Pulse Polio Campaign, the signature project of Rotary. Being the chairman of this event one could understand the real impact of the campaign and the contribution made by Rotary in this cause which has been helping thousands every year within our club jurisdiction.

Another new project in the Community Service avenue is the donation of Sanitary Pads Dispensing and Burning machine to the government high school at Maarenahalli. It is such an essential part for the girl children and availability of an user friendly machine and to make it available at the school is timely and it can be expanded elsewhere too.

All eyes are now towards the fund raising event through Dr. Rajkumar Nite and it is needless to say contribution from all will result substantial funds being raised thus helping in executing projects in the coming months.
